

WASHING INSTRUCTIONS

LONGEVITY AND CARE

We place value on durability when developing our products. Here are some tips to increase the longevity of your athletic wear.

Do's and Don'ts:

Washing Instructions

Please be sure to follow the care instructions: Wash your owayo products no warmer than 85 °F. Use only sensitive wash detergents. No fabric softeners. Do not tumble dry – air dry only. Do not iron owayo products.

Sharp Objects, Velcro

Avoid contact with zippers, velcro, sharp objects and coarse or rough materials, which may damage your sportswear.

Backpacks, Shoulder Straps

Avoid wearing backpacks, hydration systems, bags, or other coarse wearables, which may rub and damage your owayo product.
